

IDRISS BADO

Executive Data Scientist • AI Architect • Risk & MEL Intelligence Leader

Abidjan, Côte d'Ivoire

idrissbadoolivier@gmail.com | +225 07 58 40 91 36

LinkedIn : idriss-olivier-bado | GitHub / PyPI : idrissbado

Professional Profile

Senior Data & AI leader with extensive experience across fintech, development economics, research, and regulated environments. Proven ability to design end-to-end data platforms, lead cross-functional teams, and translate advanced analytics, machine learning, and geospatial intelligence into executive-level decision systems.

Professional Experience

Team Leader – National Honey Value Chain Study

SONET-CI | Mandate : CNE (EU-funded project)

Oct – Dec 2025

- Led nationwide study on honey production capacity, quality standards, and export competitiveness.
- Designed sampling methodology, digital data collection, and analytical dashboards.
- Delivered final strategic report and operational roadmap aligned with EU requirements.

Head of Data | Executive Data & Analytics Leader

BIZAO – France, Ivory Coast, Senegal, Morocco

Dec 2023 – Sep 2025

- Defined and executed enterprise-wide data, AI, and analytics strategy.
- Built ML systems for fraud detection, retention optimization, and experimentation.
- Led cloud analytics modernization and real-time executive reporting platforms.
- Acted as strategic advisor to C-level leadership on AI governance and data monetization.

Stochastic Processes Lecturer

Université Polytechnique de Bingerville

Nov 2021 – Apr 2025

- Taught graduate-level stochastic processes with applications in finance and AI.
- Supervised applied research projects and quantitative modeling.

Lecturer – Time Series Analysis

CNAM Abidjan

Apr 2021 – Apr 2022

- Delivered advanced courses in time series forecasting and econometric modeling.
- Supervised applied analytics projects using R and Python.

Lecturer – Spatial Data Science & Machine Learning

UIST – Abidjan

Mar 2022 – Present

- Designed and delivered GIS, spatial analytics, and ML curricula.
- Supervised applied research and industry-oriented data science projects.

Senior MEL Data Specialist (Regional)

TechnoServe – West & East Africa, India

Dec 2022 – Dec 2023

- Architected MEL systems across multi-country donor-funded programs.
- Integrated geospatial analytics, ML, and dashboards for impact forecasting.
- Led gender-responsive and agricultural value-chain analytics initiatives.

Senior Data Scientist Manager | Risk & AI

RiskLogics

Dec 2020 – Dec 2022

- Designed and deployed fraud detection and risk scoring systems.
- Led AI governance, experimentation frameworks, and explainability initiatives.

Research & Development Engineer Consultant

Kyria Consultancy Services

Sep 2020 – Aug 2022

- Developed advanced mathematical and optimization models for decision systems.
- Bridged theoretical research and production-grade implementations.

- Market Research Project Director & Data Science Lead**
 Indexiom Jan 2021 – Jul 2022
- Led end-to-end market research and advanced analytics projects.
 - Delivered predictive insights for strategic and digital transformation.
- Senior Consultant / Data Engineer**
 INEXA 2020 – 2021
- Designed enterprise data warehouses, ETL pipelines, and analytics dashboards.
 - Delivered advanced analytics and ML solutions for finance and public sector.
- Software Engineering Consultant – Insurance & Actuarial Systems**
 Leadway Assurance Côte d'Ivoire Apr – Jun 2021
- Built secure APIs and pricing engines for insurance risk systems.
 - Integrated actuarial models into production environments.
- Peer Reviewer – Artificial Intelligence & Algorithms**
 IEEE Computer Society Aug 2020 – May 2021
- Reviewed academic research in AI, algorithms, and computing.
- Economic Research & Trade Analysis Intern**
 Chambre de Commerce et d'Industrie de Côte d'Ivoire Aug – Nov 2019
- Conducted macroeconomic and trade analysis for policy reports.
- Freelance Software Engineer**
 Sinaibrain – Abidjan Aug 2014 – Nov 2017
- Developed data systems, dashboards, and ETL pipelines for analytics projects.
 - Implemented secure data management and reporting solutions.

Open-Source Platforms & AI Products

Founder and architect of multiple open-source AI platforms published on PyPI, covering development economics, geospatial intelligence, automated risk modeling, ML automation, and intelligent data systems.

- Development & Geospatial Intelligence Platform
- Automated Risk & Trading Intelligence Engine
- Intelligent DataFrames & ML Pipeline DSLs
- Autonomous AI Agents & Decision Systems
- Advanced Pattern Discovery & Risk Theory Research

Selected projects available on PyPI (details upon request)

Education

- M.Sc. Computer Science – Woolf University (2025–2026)
- Master in Number Theory – Université Bourgogne Franche-Comté (2023–2024)
- M.Sc. Mathematics – Aix-Marseille University (2021–2022)
- Engineer Degree – Statistics & Economics – ENSEA (2020)
- B.Sc. Mathematics – UNISAT (2011–2014)

Core Expertise

Machine Learning • Risk Modeling • Geospatial Analytics • AI Governance • Data Strategy • MLOps
 • Cloud Analytics • MEL Systems • Executive Dashboards
